

I live a remote desert area of Arizona and cannot pick up local radio stations on my car. It takes us an hour to get into Phoenix. We also travel through remote areas that do not receive regular radio transmissions. We purchased XM radio so we could have entertainment and news in our vehicle when we travel. Without XM radio we don't have any radio at all. Please leave XM radio alone!! You don't have the right to regulate everything just because you can't keep up with the changing needs of the public and the ever improving technology.
